

# How to play 24 LULLABIES by MusicalCoddle.jouwweb.nl on LYRE

The **24 LULLABIES** book was written for baby harp C4-C6. On a **LYRE** or **HARP G3-A5**, commonly tuned in C, B5+C6 are missing, so you can only play nrs. **9,14,22**; and when adjusting the last chord also **5,6,11,12,13,15,18,19**.

## This way you can play all 24 LULLABIES:

- a. Tune your F-strings to F sharp (#F), and your lyre is tuned in G. See natural lyre above.
- b. Then consider your G-string as C, A-string as D, B-string as E, etc. See blue lyre above.

Now you can read the music of the **24 LULLABIES** book as written and play all songs!  
The songs will not sound in C but in G, which will be easier to sing for lower voices!

### NOTE: only when tuned in G while reading in C

- \* in 04 play your A5 in bar 33 for the D5.
- \* in 14 tune your G4 to #G for the #C5.
- \* in 15 tune your the C4 to #C for the #F4.
